Hi, this is Lawrence Lanoff . . .

And you’re going to be ecstatic that you downloaded these

“10 Panty-Drenching Texts” . . .

This little report is short, but don’t let that fool you. The 10 texts below have been specifically chosen (out of the dozens and dozens of “nuclear heat creators” I include with the Language of Lust) to create immediate spark with a woman . . . whether you’ve been married to her for 30 years or have only known her for 30 minutes . . .

Some of these work great as quick little messages to break up the monotony of a normal day.

Others are openings to longer, hotter and dirtier conversations.

What I love about texting is it allows you to tempt and tease a girl throughout the day . . . even if she’s thousands of miles away, so her heart, mind and libido are 100% focused on YOU.

Even better, as tens-of-thousands of guys can attest, something about texting allows even the most “conservative” woman to unleash her “naughty” side and reveal her deepest, most primal fantasies . . .

And EVEN BETTER THAN THAT the “time distorting” nature of texting means a girl feels like she’s spent a TON of time “getting to know you” even if you’ve never met in person . . . and gets her hot, sweaty, naked and begging for your cock just minutes after she finally gets to see (and taste) you again.

Since it’s over text you don’t have to feel “nervous” about performing “in the moment.” You can just copy exactly what I tell you to say and see (and feel) the results for yourself.

A Few Texting Rules

In general, you want to start out slowly and and turn up the heat as she responds.

Going from “Hey how you doing” to “I want to stick my @\$#@ in your @\$# while watching \$@##\$ on the inter web and having you call me a sack of \$#@\$.” is usually a BAD idea.

But sometimes you can send a massive jolt up and down a woman’s spine by sending him something dirty right from the start . . . as long as it’s the RIGHT kind of dirty . . . the kind of dirty women have been conditioned by movies, TV and books like “50 Shades of Grey” to accept as “sexy but not creepy.”

OK, Enough!

Here's your 10 "Done For You" Texts . . .

Feel free to just "cut and paste" these into your phone. Note that some of these should only be sent if you already have a "sexual context" with a girl, while others can be used to take a girl from thinking of you as "harmless and a friend" to "sexually dangerous and irresistible."

No matter what, the key to successfully "sexting" a girl is to maintain control of the conversation, focus on her imagination and feeling (and HER experience) and to ALWAYS be the first one to end the conversation.

I can't stop thinking about . . . =-)

I got this from my friend Michael Fiore. He calls it a "Curiosity opener." What's great about it is it allows you to use a woman's imagination "against" her and can also keep her slightly off balance by sending a text that COULD be totally innocent. (Bonus points: If she replies with something sexy you can mess with her a little by saying something banal like "Actually, I was thinking about the car repairs I have to do . . . but I like what you're thinking too. Wow, you're naughty!")

Stop it. =-)

Start by sending a simple "Stop it. =-)" or "Cut it out."

Wait for her to respond with "Stop what???"

IMPORTANT: NEVER continue the text until she's responded. If she doesn't respond just move on. Not the right time.

Reply with “Distracting me. I’m trying to (whatever you’re supposed to be doing) but I can’t stop thinking about (her best physical asset.)”

This works really well with a girl you’ve been flirting with and turning up the heat with using “The Language of Lust” but haven’t yet had sex with . . .

But it works AMAZING a day or two after you’ve slept with a girl as a way to bring all the intense emotions and feelings she felt during sex with you rushing back to her mind and body.

In that case you’d do the standard “Stop it.” Wait for the “Stop what?” then follow up with . . .

“Distracting me. I’m supposed to be working but all I can think about is how fucking beautiful you looked when you were (something you really enjoyed while having sex with her.)”

The Key Here is that you’re making her feel powerful and desired without giving up any of your masculine dominance at all.

**I can't stop thinking about your eyes . . .
something about you just brings out the
animal in me**

It doesn’t have to be her eyes - you can compliment her on anything that SHE thinks of as her best feature. (Don’t compliment her on something she’s insecure about no matter how much you love it. It breaks the spell.)

Again, this text makes her feel a rush of **feminine power**. She gets to be the woman who **INSPIRES** you to crazy levels of passion and desire. Totally intoxicating to a woman while still keeping you “in control.”

If you were here right now I would . . . =-)

Again, we're using an incomplete text to spark her imagination. Once she says "What would you do?" you need to follow up by describing in **sensual detail** how you would touch her and exactly how she would respond. I go into detail on this in "The Language of Lust."

You have no idea . . .

This is a "anticipation builder."

Simply send . . .

"You have no idea . . ."

Wait for her response. Generally it'll be a "Huh?" Or "About what?")

If you've already got a lot of positive sexual rapport with a woman you can follow up with "What I'm going to do to you next time I see you =-)."

CAREFUL THOUGH as if you haven't established positive sexual "danger" with her that can come across as too aggressive. (NOTE: We never actually want a woman to feel like she's in any "danger," but we want to activate her adrenaline by pushing her boundaries.)

A more tame version is:

"You have no idea . . ."

Wait for her response.

Then "How amazing it's going to **feel** the next time I (kiss you, touch you, fuck you, hug you.)"

This is a versatile text and creates a real feeling of connection and anticipation so she rubs her thighs together as she thinks about seeing you again.

Just imagine . . .

You can use “Just Imagine” as a starter text for pretty much any kind of sensual storytelling or Personal Porn Script. The word “imagine” is used by hypnosis experts a lot to access the unconscious mind.

For example: “Just imagine my strong hands on your shoulders . . . all the tension melting out of your muscles . . . you let out a small *sigh* as you feel yourself truly relax for the first time all day. You feel a thrill of energy through your body and feel absolutely safe in my arms.”

Etc.

Can you pick out the other “tricks” I used in that text to make a woman feel desired, “guided” and turned on

I really love your smile and the spark you get in your eyes when you think about me. I bet you have that sparkle right now . . .

This is a “Psychic Powers” type text.

You probably already know that a tremendous number of women believe in astrology, psychic powers and all sorts of stuff like that.

What really goes on is a self-fulfilling prophecy. By telling her what her reaction to the text is you almost always CAUSE that reaction to happen (and suddenly she feels like you're the one man who really "gets" her.

I've never met a woman I had such an incredible sexual connection with before. You're amazing.

This seems like just a cheesy line or compliment but it's actually way more complicated. One of the keys to getting a woman to give in to her "naughty" side and enjoy the experience is to make the whole thing feel special and romantic like something out of a romance novel.

No woman wants to feel like a "slut," but if she feels a "connection" with you (which you can actually create just by saying it exists) she'll allow herself to surrender to you in incredible ways.

I'm craving your skin

Simple but very effective. Most guys mess this up and get too dirty by saying things like "I crave your pussy." or "I crave your tits" but that kind of language just drives women away.

If you get more sensual and specific she'll love it.

"I'm craving the feeling of your skin against mine as we make out." "I'm craving that look in your eyes when we're together."

Again, for women it's got to be more about connection and sensuality if you want to inspire her to give you the porno-level sex you want.

Guess what I'm thinking about? All of the ways I can make you have an orgasm

Fact: Most guys suck in bed and are only interested in their own pleasure. This kind of text establishes you as different than most of the douches, shows a high level of sexual confidence, builds anticipation and shows that you actually care about making her feel good.

You can actually fill the “Answer” part of this in with almost anything. One of my favorites is “Guess what I’m thinking about? That incredible moan you let out when you’re having an orgasm. You probably don’t even know you’re doing it but it just sends electricity up and down my spine. Gah.”

Whew!

Kind of crazy and simple and hot, right?

Listen: I know you might think some of these texts are “over the top,” or even that some of that sound “cheesy” but that’ll go away as soon as you start actually using them with women. I didn’t think this stuff worked until I started trying and found out just how incredibly well it DOES work. Most women are absolutely starved for a guy with a imagination and the ability to use words the way she so desperately wants.

Just by using these texts you grab control of her erotic imagination and focus all her desire, all her lust, all her feminine NEED directly on YOU.

Of course once you’ve got all that energy pointed your way, you need to know what to DO with it . . .

P.S. Here's just a tiny sample of the rave reviews and testimonials guys all over the world have given *Language Of Lust*. . .

“While on a walk with my fiancé, she watched as I tried to steal the attention of a young woman with a man in a restaurant. I glared at her holding onto the sexual tension taken from my fiancé. Moments later she looked up and mouthed hello around the gaze of her suiter. We tried it twice more with success in stealing the attention of those we wanted without a word. Thanks for the new super power!”

“All I can say is that if I'd been exposed to something like this in my 20's love/sex/relationship life would have been very different.”

“Over the past 3 years my wife and I have had multiple miscarriages and she has had some fairly serious physical issues and emotional trauma following the birth of our son. Language of Lust and particularly the section on resistance to pleasure has helped us to rekindle a physical relationship and feel closer together in just a couple of weeks and we still have so much of the program to explore.”

“I was able to reawaken the sexual attraction spark with my wife and to witness it while interacting with women in my daily life in general.”
